

# UPDATE

May 2006

As we celebrate **EMS Week** and **National Stroke Awareness Month**, FAST-MAG wishes to send sincere thanks to all the paramedics who have enrolled, or attempted to enroll, patients in the FAST-MAG study. With nearly 150 patients successfully enrolled, future stroke patients will owe a debt of gratitude to those who have gone the extra mile to advance stroke research. Since our last "Update," 50 new patients have been enrolled with a record five in one day. May "Update" statistics are through April 30, 2006. Thanks, as always, for your dedication and professionalism!

### Enrollment Updates

Number of Enrolling Hospitals = 37  
(see back of page for a complete listing)

Number of Patients Enrolled = 141

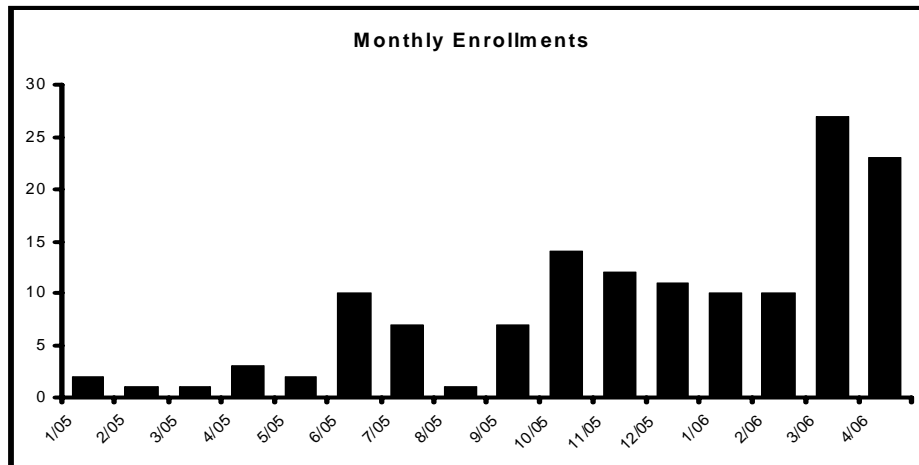

### FAST-MAG Enrollment Numbers

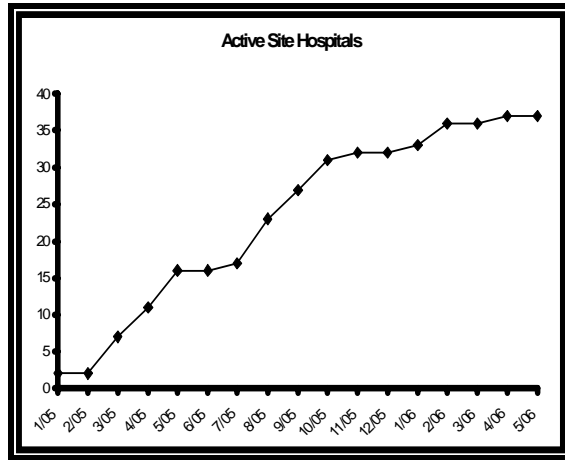

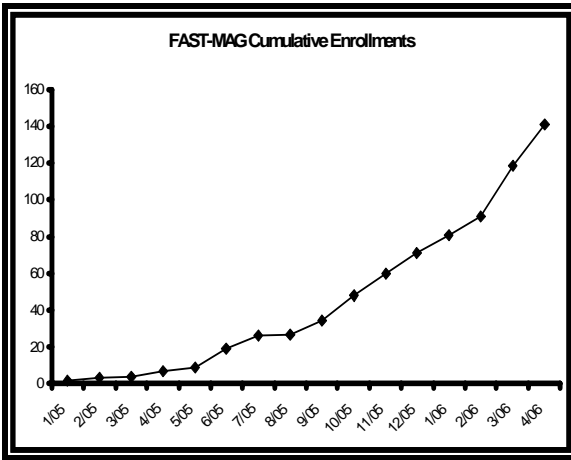

- Average time from paramedic arrival at patient to ED drop-off = 35 minutes.
- Average time from stroke onset to start of study drug = 47 minutes.
- % of patients receiving study drug within one hour of symptom onset = 73%
- % of patients receiving study drug within 1-2 hours after symptom onset = 22%.
