

UPDATE

January 2007

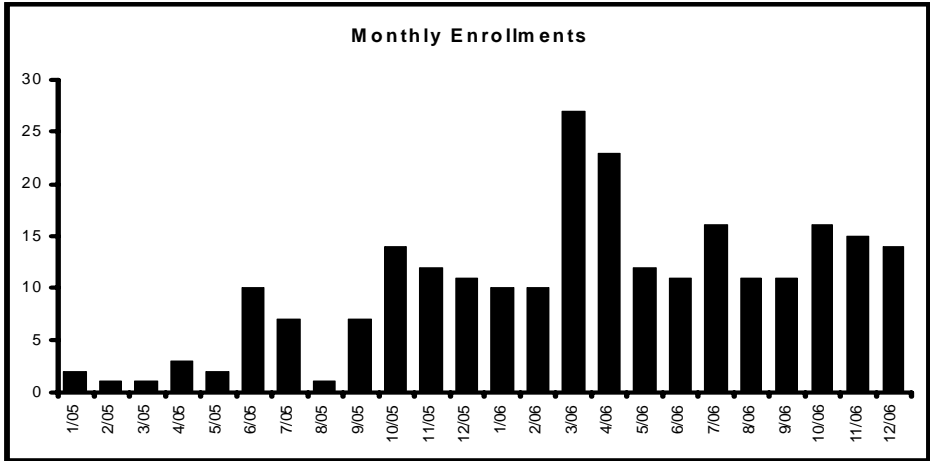

Happy New Year! Since our last “Update” in November, 40 new patients have been enrolled, and again, we thank all paramedics who made a call to the enrolling physician. We have an **encouraging statistic** to report to you regarding how many calls to the enrolling physician actually result in an enrollment. Of the 582 calls received by the enrolling physicians over the life of the study, 248 patients have been enrolled. This is an enrollment rate of 43%. Thus, almost one in two calls has resulted in an enrollment! Your efforts on behalf of each and every potential FAST-MAG patient continue to make a difference and are greatly appreciated!
