

UPDATE

April 2007

Through the efforts of paramedics in Los Angeles County, FAST-MAG has exceeded another milestone, with greater than 300 patients enrolled! Since our last "Update" in January 2007, 68 new patients have been enrolled, with 26 in the month of February alone (our second highest month!). Again, we thank all paramedics who made a call to the enrolling physician. Every call, whether it results in an enrollment or not, is vital to the success of this study. Your efforts on behalf of each and every potential FAST-MAG patient continue to make a difference and are greatly appreciated!

Enrollment Updates (as of 3/31/07)

Number of Patients Enrolled = 316
 Number of Enrolling Hospitals = 41
 (see back of page for a complete listing)

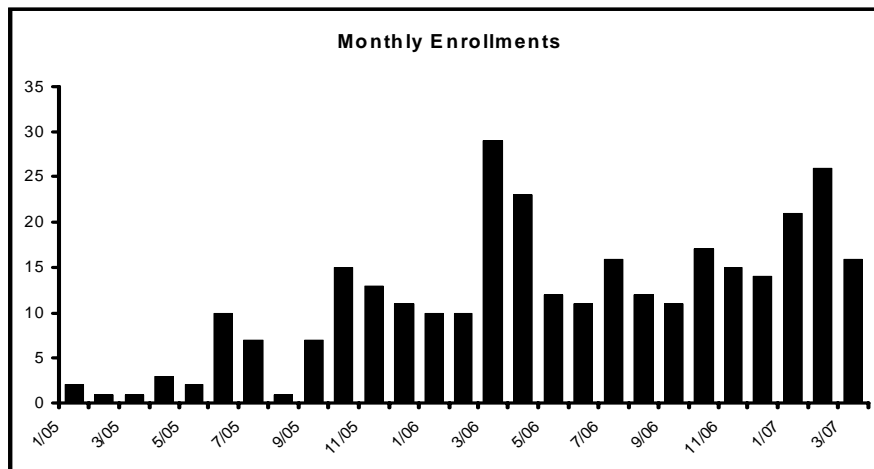

FAST-MAG Enrollment Numbers

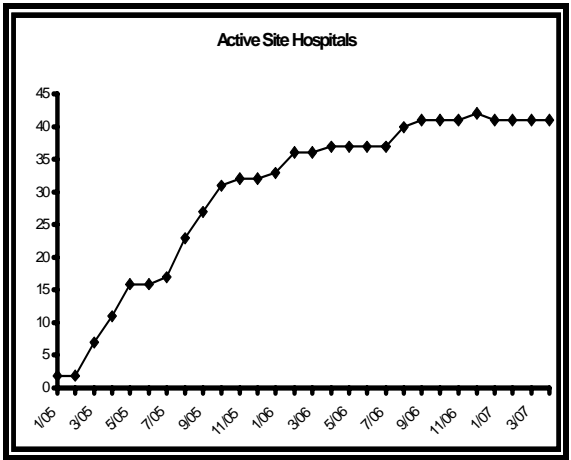

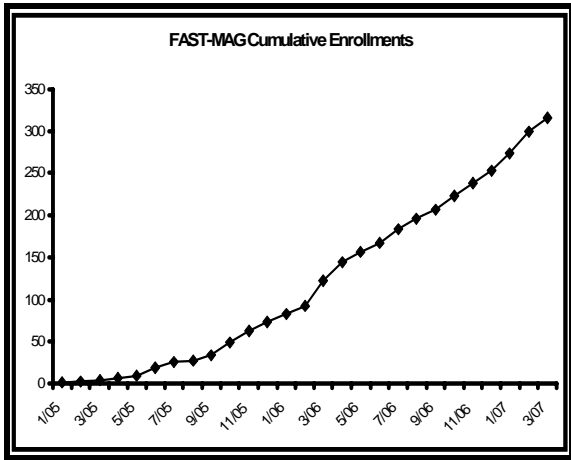

- Average time from paramedic arrival at patient to ED drop-off = 35 minutes.
- Average time from stroke onset to start of study drug = 45 minutes.
- % of patients receiving study drug within one hour of symptom onset = 75%.
- % of patients receiving study drug within 1-2 hours after symptom onset = 25%.
