

## ARE YOU A FAST-MAG MASTER?

### Do you always

- Quickly identify a possible stroke and perform the mLAPSS?
- Briefly* introduce the study?
- Call the enrolling MD soon after arrival at patient and definitely before departing scene?
- Wait for the enrolling MD to tell you who should sign the consent?
- Open the study drug kit only **after** the enrolling MD gives you the okay and begin the infusion **before** arriving at the ED?
- Notify the enrolling MD if there is any problems?

Did you check every box? Great. You are a FAST-MAG master. For additional information, please review the mLAPSS and the Quick Guide or contact your liaison nurse.
